# What To Do If Your Child Is Missing

**Act immediately if you feel your child is missing!**

- If your child is missing from home, search the house checking all closets, in & under beds, cabinets, backyard, neighbors &/or friends' home—wherever a child may crawl or hide.
- If you still cannot find your child, immediately call your local law-enforcement agency – dial **911**
- If you can't find your child in a store, notify the store manager or security office. Then immediately call your local law-enforcement agency. Many stores have a Code Adam plan of action—if a child is missing in the store, employees immediately mobilize to look for the missing child.
- When you call law enforcement, provide your child's name, date of birth, height, weight, and any other unique identifiers such as eye glasses, braces & visible birth marks &/or scars and what clothing he or she was wearing.
- Request that your child's name and identifying information be immediately entered into the National Crime Information Center (NCIC) Missing Person File.
- After you have reported your child missing to law enforcement, call The National Center for Missing & Exploited Children at 1-800-THE-LOST (843-5678).

## **Safety Rules!**

- I tell my parents or an adult I trust, like a teacher, if anything happens to me.
- I take a friend with me when going places & / or playing outside.
- I say NO if someone is touching me or doing something to me that I don't like or makes me uncomfortable, scared or sad.
- I always check first before going anywhere, doing anything, helping anyone, accepting anything, getting into a vehicle, or leaving with anyone.
